CURRICULUM

Art Center 20

Library

The Pocahontas County High School Library provides a quiet place for studying, looking up material, or just a pleasant place to relax.

Music Listening

In music listening the students study vast kinds of music and their composers. They learn why music is written and how it reflects the time period in which it was written. The modern compositions of JESUS CHRIST SUPERSTAR and WOODSTOCK, plus Broadway musicals such as HAIR and WEST SIDE STORY were studied this year. The class also deals with country, rock, and classical music.

Biology

Biology, the study of plant and animal life, is a required course for sophomores. Mrs. Sharpes leads students in the investigations of structure and physiology of animals, plants and protists, genetics, evolution, and history of life. Students do experiments with dissections of animals, plants, and individual projects.

Chemistry

Chemistry students, under the supervision of Mr. Harold Crust, learn the structure and composition of materials and changes that occur with them. They learn through experimentation and sometimes--their mistakes.

Physics and physical science are also offered by the department.

Physical Education

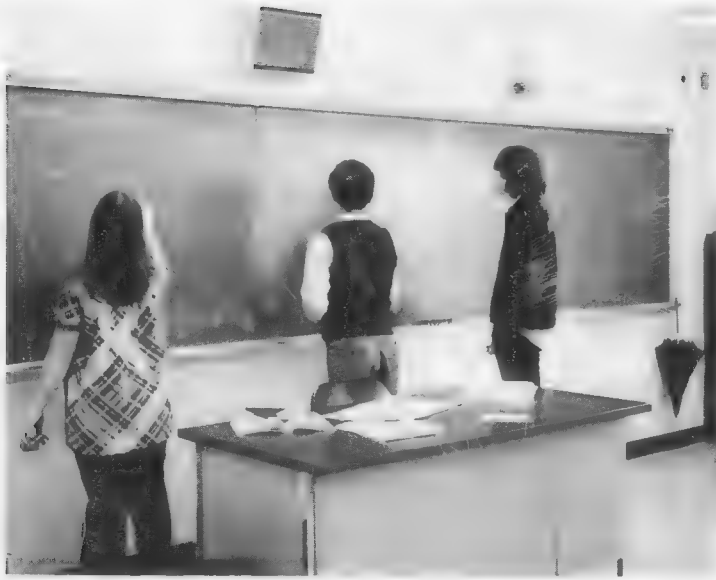

In physical education the girls play many different games which include volleyball, basketball, soccer, badminton, hockey, and archery. And would you believe they learn karate to learn to defend themselves!

Basketball is just one of several activities emphasized in physical education for boys. Others include crab soccer, ping-pong, square dancing, volleyball, softball, track-olympics, and tumbling. New activities this year included judo, wrestling, physical fitness (weight machine), obstacle course, and knee football.

In order to raise money to pay for our new ensolite mat, the P. E. classes sponsored "Activity Nites" at the school, as well as a Donkey Basketball game.

Math

The math department offers General Math, Business Math, Algebra I, Algebra II, Geometry, and Algebra III/Trigonometry. The purpose for teaching mathematics in high school is to develop logical reasoning and abstract thought processes.

English

In Literature the major English and American authors with representative works of each are studied and discussed with some attention to minor writers. The student becomes acquainted with the purposes and techniques involved in the various forms of literature.

Also, a review of grammar, punctuation, vocabulary and common English usage is integrated with practical training in the various forms of informative, descriptive, evaluation and persuasive writing.

In addition to the regular student themes, personal essays and research papers, the students in the English classes wrote a speech on the topic, "Solid Waste Disposal in the Greenbrier Valley".

Foreign Language

Latin and French are taught as foreign languages. The primary objective in the teaching of a living foreign language in Pocahontas County High School is that the student may obtain enough of a mastery of the language to converse with some fluency with a native of the country under study and to read with some appreciation the literature of the country's authors.

In the picture above, a student in the first year French class prepares to listen to a French native speak via records.

Department

Basic English is a class designed for individualized instruction and learning of reading and basic English principles. Here is the sixth period class consisting of sophomores, juniors and seniors.

Commercial Sewing

Commercial Sewing is a two hour block class. The girls learn to make clothes, seat covers, and curtains. They have field trips to sewing factories and to learn how to buy fabrics.

The class also presented a Spring Fashion Show where girls modeled clothing they had made.

In the electricity classroom students cover complete house wiring including electric heat. They also cover motors and generators. Although commercial wiring is part of the goal, their main goal is for each individual student to be able to do a complete house wiring in accordance with National Electric Code.

Vocational

Commercial Foods

The Commercial Food class is a two-hour block class. The girls learn how to prepare and serve different dishes. The girls also cook and serve lunches to teachers during the school year.

Electronics

Electricity

Studies

In electronics the boys learn to repair televisions, radios, clocks, and small motors. The class is for ninth and tenth graders; it's also a three hour block class.

Nursing

Nurses Training class is a class to prepare students for nursing. The girls visit hospitals and exercise what they have been taught in class, such as making beds, taking temperatures, giving baths, and working in the nursery and X-ray departments.

Typing

The Typing I students are taught the fundamentals of typing; with emphasis on how to type business letters, invoices, etc.

History

In History class students discuss the problems of History in comparison to problems of today. The classes give the students a chance to express their opinions, makes them more aware of our problems and shows them how they can help.
